MICROTEACHING PRESENTATIONS

PCEPT QEC UET Lahore
Microteaching?

• Microteaching is an organized practice of teaching in which we deliver a mini-lecture to our colleagues.

• Microteaching has an entirely different feel and outcome than teaching in an actual university class.

• The main objective of the microteaching sessions is to provide the participants with an environment for practice-based teaching and to instill self-evaluative skills.
Microteaching - Lesson Plan

- Part 1  Topic, Subtopic, Class, Location
- Part 2  Objectives of the Lesson/Expected Outcome
